## 2025 Summer Board Meeting

---

Anton joined the meeting at 12:43 pm

Anton was suggested scheduling a meeting during a national event – such as congress or Nationals – where members may already be present instead of scheduling a separate weekend for travel. Another option discussed was getting the men’s program involved in Region 1 Congress again – that event could be used as a potential event for a R1 Board Meeting.

Matt’s concern with scheduling a summer board meeting during an event is timing. The preference would be to do a meeting earlier in the summer rather than later in the summer when most of the national events take place. A summer meeting in a Los Angeles area hotel conference room next year seems to be the best and simplest option for next year.

## Region 1 Website

---

Matt shared updates made on the Region 1 Website. Board members reviewed state logos, websites, email addresses. The calendar has been updated to include Regional and National events.

## Region 1 Future Stars

---

The 7-year olds would be doing the regional routines, the 8 & 9 year olds would do the old national routines (provided by the region), and the 10+ year olds would do their technical sequence.

The discussion moved to determining age groups for Future Stars. Should future star athletes compete routines for their current age, or for the upcoming competition season age. Adam's view is because the Future Stars event is so late in the year, it should be viewed as a pre-season preparation and age should be whatever the upcoming competition season age is going to be. No final decision will be made today but Matt's idea will be 7-9 year olds would show routines, and 10-11 year olds will do the clinic. The current date for R1 Future Stars is a week after Elite Team Camp (Oct 19-20) – Location: TBD.

## Selection Procedures for STC & ETC
